PILOT EXEMPT MASTERS AND BRM

Date: 30 April 2018
AUS Chart: AUS 50 & 51

All Pilot Exempt Masters operating in the port of Broome are advised that they are required when within pilotage waters to operate and man their bridge in line with sound bridge resource management processes.

The vessel is expected to have a proper passage plan right to the berth and at least two navigating officers utilizing BRM principles on the bridge throughout the pilotage passage.

Vessels unable to provide additional manning on the bridge to meet this requirement are expected to utilize a Port Pilot for the pilotage operations.

Lindsay Copeman
HARBOURMASTER

Marine and other port users are requested to notify the Kimberley Ports Authority on the discovery of new dangers or suspected dangers to navigation.
