

LOCAL MARINE NOTICE

Number: 39-2018 Date: 19 December 2018

PRELIMINARY NOTICE – BEACON IN LINE REMOVAL

Date: 19 December 2018
AUS Chart: AUS 51/ Port and Terminal Handbook

Mariners are advised that the beacon's in-line 305.6° in approximate position 17° 59'.12' South 122° 12'.84 East are soon to be removed.

These in-line beacons provide a guide to the alignment and extremity of the North Eastern limit of the prohibited anchorage area in the Inner Harbour.

Whilst the prohibited anchorage area remains with modern GPS position fixing instruments becoming the norm, even for small vessels, the beacons no longer serve a useful purpose.

They will be removed during the first quarter of 2019.

Lindsay Copeman
HARBOURMASTER

Marine and other port users are requested to notify the Kimberley Ports Authority on the discovery of new dangers or suspected dangers to navigation.
